

2. The following data is made up solely of Wisconsin schools for which Focus on Energy has obtained building characteristics and at least one year's energy consumption data:

- a. Total Energy Use: Wisconsin Average 67.7 kBtu/sq.ft.
Our Average 50.7 kBtu/sq.ft. Lower than 85% of the schools
- b. Electric Use: Wisconsin Average 5.4 kWh/sq.ft.
Our Average 3.2 kWh/sq. ft. Lower than 96% of the schools
- c. Heating Fuel Use: Wisconsin Average 48.7 kBtu/sq.ft.or 7.1 Btu/sq.ft./HDD
Our average 39.7 kBtu/sq.ft. Lower than 65% of the schools
Our weather adjusted fuel use is 4.8 Btu/sq.ft. per heating degree day.
Lower than 80% of the schools
- d. Energy Cost: Wisconsin average \$0.87/sq.ft. or \$151/student
Our Average \$0.59/sq.ft. Lower than 94% for the schools
Our Cost/student \$255/student Lower than 17% of the schools

- F. **Facilities Consulting:** Focus on Energy rep did a walk through April 29. Report will be forthcoming. No cost.
- G. **Bruce Secor:** Our day time janitor, Bruce Secor, is slowly recovering from his surgeries. He got out of the nursing home May 3
- H. **Auxiliary Donations:** The Auxiliary donated up to \$2475 to be used for athletic field maintenance and \$1000 to purchase two barn fans to help with ventilation.
